It is Friday, May 15, 2020 and as of 12:00 pm today, there **NO** new cases of COVID-19 in Douglas County. Also, 23 of the 24 cases that tested positive have recovered. There has only been one positive case reported in the last 25 days, and that case was reported as recovered before their test results were returned. Testing continues, as DPHN has been holding 2-3 clinics a week and hospitals, urgent cares and clinics continue to test. Twenty-four people have tested positive in the county and twenty-three of those twenty-four have recovered. DPHN defines recovery as an end to all symptoms after a positive test for COVID-19.

The Oregon Health Authority (OHA) has expanded their reporting for COVID-19 case management and will now include presumptive COVID-19 cases. DPHN will also be reporting presumptive cases and will use the OHA’s definition of presumptive as having had close contact with a known, confirmed COVID-19 case, showing symptoms and not yet having a positive nasal swab/PCR test for COVID-19. DPHN continues their epidemiologic investigations, identifying individuals who may have had close contact with individuals that have tested positive for COVID-19, advising and supporting quarantine. The majority of the individuals who have tested positive earlier have now recovered.
