

DOUGLAS COUNTY COVID-19 RESPONSE TEAM

Our local COVID-19 updates represent the coordinated effort of the agencies that make up the DCCRT

JOINT INFORMATION CENTER PRESS RELEASE - FOR IMMEDIATE RELEASE – December 29, 2020 DOUGLAS COUNTY COVID-19 RESPONSE TEAM - DAILY UPDATE

(Douglas County, Ore.) **Douglas County COVID-19 Test Results:** As of 12:00 pm Today, Tuesday, December 29, 2020, there are **NINE (9)** people with new positive test results, **ONE (1)** new presumptive and **ONE (1)** death to report since our noon case update yesterday. The total number of cases (people with positive test results and presumptive) in Douglas County is now at **1,354***. Currently, there are **TEN (10)** Douglas County COVID-19 patients that are being hospitalized, nine locally and one out-of-the-area. Our Douglas County COVID-19 Response Team, under the direction of the Douglas County Board of Commissioners, who administer our local public health and oversee the work by Dr. Bob Dannenhoffer, our Douglas County Public Health Officer and Douglas Public Health Network, continue to devote all resources available to our local COVID response.

COVID-19 Related Death of a Douglas County Resident

Our Douglas County Public Health Officer, Dr. Robert Dannenhoffer, has confirmed the death of another Douglas County resident related to the COVID-19 virus. Our thirty-eighth death is a 61-year-old man who was diagnosed with COVID on Monday, November 30, 2020 and passed away on Saturday, December 12, 2020. In the interest of privacy for the loved ones of this resident, no additional information will be released. Each death related to COVID-19 is painful for all Douglas County residents, and a sad reminder of the terrible impact COVID-19 has had in our local communities. The Douglas County Board of Commissioners, Dr. Dannenhoffer, DPHN and the DCCRT team extend our heartfelt condolences and sympathies to all family members, friends, relatives, co-workers and community members of those who have passed after contracting this deadly virus.

The State of Oregon Notified Douglas County That We Will Be Lowered to the High Risk Guidance Level

Good news for Douglas County residents and businesses is that we have succeeded in getting our COVID case numbers down, and the State of Oregon notified Douglas County that we are among a small group of counties that will be moving to a lower risk level based on COVID-19 spread, starting on Friday, January 1, 2021. Douglas County is being lowered to the High Risk Level from the Extreme Risk Level. The new risk levels will be in effect from Friday, January 1, 2021 to Thursday, January 14, 2021. We want to thank our residents and businesses for following the recommended guidelines and for making good decisions in order for our communities to start opening back up. The new risk level will allow restaurants and bars to open for limited indoor dining, gyms and indoor recreation to reopen, indoor sports to resume, theaters and museums to reopen, indoor and outdoor businesses, services and activities will see some capacity levels increased. The new risk level does not affect the latitude recently given by the State of Oregon for faith based organizations and local school districts to make decisions for their own congregations and educational programs. [Click here](#) to view the State of OHA's recommended sector risk level guidance chart. [Click here](#) for the State of Oregon and OHA's sector specific recommended risk level guidelines. **As a reminder**, the risk level and subsequent state recommended sector guidelines are a part of the **State's Building a Safe and Strong Oregon** COVID campaign which is monitored, accessed, implemented and enforced by the State of Oregon and OHA. According to the State and OHA, next week will be another warning week, and the new risk data will be sent out on Monday, January 4, 2021. The following week will be another movement week and new risk data and possible level movement will be sent out by the State and OHA on Monday, January 11, 2021. For more information on the State of Oregon and OHA's COVID Sector Risk Levels and Recommended Guidelines, please contact the [State of Oregon](#) directly or log onto the [OHA COVID Website](#).

Douglas County, OR - COVID-19 - Case Update

Date	Friday, December 25, 2020	Saturday, December 26, 2020	Sunday, December 27, 2020	Monday, December 28, 2020	Today, Tuesday, December 29, 2020
Total COVID-19 Cases	1,346	1,353	1,363	1,344**	1354
People w/ Positive PCR or Antigen Test Results	1,268	1,275	1,285	1,266	1275
Presumptive	78	78	78	78	79
Total Currently Hospitalized	8	10	11	11	10
Total Currently in Isolation	138	145	154	103	104
Total COVID-19 Related Deaths	37	37	37	37	38

U.S. Department of Veterans Affairs
Veterans Health Administration
Rossburg VA Health Care System

**Our daily update includes the total number of cases in Douglas County, which combines people with positive test results and presumptives. We provide a breakout of the people with positive test results and presumptives in the chart above. Please note there will be times when a presumptive will move to a positive test result, and our total case number will not change because the case has already been counted, instead you will see an adjustment to our breakout numbers for positive test results and presumptives. OHA has chosen to no longer provide or report negative test results, so we will no longer be reporting this data in our daily update. Please contact the [Oregon Health Authority](#) for more information. **The total on 12/28/20 reflects 20 positive test results that were rescinded due to a lab processing error, and 2 additional positive test results that were rescinded and moved to their respective County of residence.*

Local Cases Being Supported in Isolation and Quarantine

Currently, DPHN is supporting **104 cases** in isolation, as well as another **225 contacts** in quarantine in Douglas County. Isolation is recommended for confirmed and presumptive cases, quarantine is recommended for contacts of confirmed or presumptive cases. Currently, staff is supporting an astounding **329 total contacts** in isolation or quarantine. This number represents a snapshot of the significant amount of work being done by our county and Douglas Public Health Network to help control the spread of COVID-19.

2021 Is Just Around the Corner! Remember You are the KEY to COVID Safe Holidays!

It is no secret that the key to stopping the continued spread of the coronavirus is, **YOU**, our residents, our families, our communities and our businesses. Please celebrate safely this holiday season. Prevention is the best medicine, and not just to help stop the spread of COVID, but for your overall health and wellbeing as well. If each and every individual in our county would make a real concerted effort to implement prevention measures into their daily routine, we could see a huge decrease in our COVID case numbers. We need each and everyone one of our residents to take the necessary steps to minimize the spread of germs and contagions. You can help by staying home this holiday season, keeping gatherings to just your household, maintaining healthier eating habits; incorporate exercise and cleaning routines; being cautious and keeping distance from others; making modifications to how you socialize with others; choosing no contact deliveries and services; and staying home if you are sick. The suggestions we make and the guidelines presented by public health are not just for your health and safety, but for the health and safety of everyone, including our kids, our grandparents, our coworkers, our first responders, our teachers and our businesses. We know we sound like a broken record, but our primary focus is to do everything we can to protect the health, safety and wellbeing of our residents. Dr. Bob Dannenhoffer, Douglas County Public Health Official, urges residents to stay home when they are sick to help protect others from getting sick and spreading disease. This means not only staying home from work and school, but also staying home from all other activities and social events. Please, if you are sick, even if you just have a runny nose or stuffy head, do not go to work or attend any social gatherings, church services or meetings, birthday or holiday parties, indoor or outdoor celebrations, family dinners, weddings, game or poker nights, prayer groups or indoor workout sessions, and expose others to your illness.

Help STOP the Spread of COVID

- *Make a habit of washing and sanitizing your hands, regularly. That means washing after you eat, if you touch new surfaces, go to the bathroom, open a door, go to the store, go to the post office or after a meeting. Also try and avoid touching your face as much as possible.*
- *Please wear a mask when you are around others not from your household. Not just for your protection, but for the protection of others.*
- *Stay at least six feet apart from anyone that is not from your immediate household. This means paying attention to the distance stickers at the store, the bank, at restaurants and at businesses. Please be respectful, kind and polite, by giving people ample space.*
- *Stay home from work, school and play if you are sick. This includes not running errands or going shopping or inviting visitors to your home. If you need help, reach out to friends, family or utilize an app or businesses that offer no contact deliveries or services.*
- *Minimize travel, especially out of the state and limit visitors to your home.*
- *Minimize attending social gatherings or going places where there are large groups of people.*

The DCCRT team, under the direction of the Douglas County Board of Commissioners, along with Dr. Bob Dannenhoffer, our Douglas County Public Health Officer and Douglas Public Health Network encourage residents to make prevention measures a priority in their everyday routines.

Getting Tested & Testing Clinics

The next drive-through testing clinic will be Today, Tuesday, December 29, 2020, in Roseburg. Please note that with Christmas Day and New Year's Day both falling on Friday's, we will only be hosting our drive-through COVID testing clinics on Tuesdays for the weeks of December 21 and December 28, 2020. As a reminder, if you are having symptoms of COVID-19 including cough, fever, shortness of breath, muscle aches and pains, diarrhea, sore throat or decreased sense of smell and taste, talk to your health care provider about being tested for COVID-19. Patients without a Primary Care Provider that are looking for a COVID-19 test should contact the Sutherlin Aviva Health Clinic at (541) 459-3788. The first drive-through testing site was piloted in the county on March 17, 2020. Since then, there have been 2,123 tests performed in local drive-through clinics, while additional testing continues in hospitals, urgent cares and clinics. The drive-through clinics are led by DPHN, in conjunction with partner agencies including; Douglas County COVID-19 Response Team, Douglas County Board of Commissioners, Douglas County Sheriff's Office, Douglas County Public Works, local volunteers and local health professionals.

Oregon COVID-19 Case Update

Oregon Health Authority (OHA) reports new cases once a day on their website at www.healthoregon.org/coronavirus. OHA also releases a daily situation status report and a weekly report that details the overall picture of the COVID-19 outbreak within our state. The daily report details positive and presumptive cases, as well as deaths by county and statewide, while the weekly report is more in depth and includes statistical data related the severity of cases by age, gender, zip codes, ethnicity, as well as information on workplace and senior care facility outbreaks in Oregon. Find additional information on the state or Federal COVID-19 response go to [Oregon Health Authority](#), [U.S. Centers for Disease Control](#), and [211Info](#).

Oregon COVID-19 Presumptive

OHA expanded their reporting for COVID-19 case management to now include presumptive COVID-19 cases in their total case number. DPHN is reporting the number of people with new positive test results and any new presumptives and uses the OHA's definition of presumptive as having had close contact with a known, confirmed COVID-19 case, showing symptoms and not yet having a positive nasal swab/PCR or antigen test for COVID-19. Testing continues, as DPHN has been holding 2-3 clinics a week and hospitals, urgent cares and clinics continue to test. DPHN continues their epidemiologic investigations, identifying individuals who may have had close contact with individuals that have tested positive for COVID-19, advising and supporting quarantine and isolation.

OHA Reporting and Definition for Recovered

As per the [Oregon Health Authority COVID-19 Investigative Guidelines](#), the number of recovered cases is no longer being assessed or reported by OHA. Up until May 1st, 2020 recovery from COVID-19 was defined as being afebrile (not feverish), without the use of antipyretics (medicine to reduce a fever), and having resolution of cough, shortness of breath and diarrhea for at least 72 hours. As more was learned about symptoms, recovery and contagious period, the definition of recovered changed. Beginning May 1st, OHA stopped reporting recovered cases while also separating recovery from contagious or isolation period. Many cases were no longer contagious, as they were outside of the contagious period, but still having lingering symptoms. To be consistent with OHA and to adapt as we learn more about this new virus, we removed the column in our chart listing recovered cases. At that point, we added the number of those in isolation, roughly indicating active or infectious cases of COVID-19 in Douglas County.

Facebook Live with Dr. Bob

Please join us **Tonight, Tuesday, December 29, 2020 at 6:00 pm** for our next Facebook Live with Dr. Bob Dannenhoffer, the Douglas County Public Health Officer, hosted by DPHN on the [DPHN Facebook page](#). Residents are still able to submit their COVID-19 questions to Dr. Bob during the live shows, but you can also email your questions to: Facebookquestions@douglaspublichealthnetwork.org. Dr. Bob and the DPHN team will do their best to respond to as many questions as they can during their weekly updates.

ACCESS LOCAL COVID-19 INFORMATION

Stay Informed with Accurate Local Information

Stay up to date on COVID-19 in Douglas County on the [Douglas County Government website](#) or the [DPHN website](#). Your Douglas County Board of Commissioners, Douglas County Public Health Officer, Dr. Robert Dannenhoffer, DPHN and the Douglas County COVID-19 Response Team (DCCRT) have been working hard to cooperatively provide accurate and timely information to Douglas County residents since March 8, 2020. Our local COVID-19 updates represent the coordinated effort of the agencies that make up the DCCRT.

Douglas County Resource/COVID-19 Hotline: (541) 464-6550

Your Douglas County Board of Commissioners and Douglas Public Health Network continue to offer a local resource and referral service via our COVID-19 hotline for Douglas County residents. The Hotline helps residents get answers to questions, provides up-to-date COVID information and helps residents get connected to resources and services related to COVID-19. **The Resource/COVID-19 Hotline is (541) 464-6550. It is staffed from 8:00 am to 5:00 pm, 7 days a week until further notice.**

ACCESS STATE COVID-19 INFORMATION

To access information for the State of Oregon and Federal COVID-19 response go to [Oregon Health Authority](#), [U.S. Centers for Disease Control](#) and [211Info](#).

Questions about Governor's Statewide Metrics and Risk Level Guidelines? If you have questions or need more information on statewide guidelines or risk levels, go to the [State's Building a Safe and Strong Oregon](#) website or the [Governor's COVID-19 website](#) or call the Business Oregon's Navigator Hotline at (833) 604-0880. **For information on COVID-19 in other counties and around Oregon, call 211 or visit [211info](#).**

Who Do You Contact to Report Compliance Issues with the Governor's Statewide Guidelines? Please do not call 911, Douglas County Sheriff's Office or Douglas County Offices to report compliance issues with the State of Oregon, OHA or Governor's orders. The Governor has directed the State offices for **Oregon Occupational Safety and Health (OSHA)** and the **Oregon Liquor Control Commission (OLCC)** to be the enforcement agencies responsible for ensuring restaurants, bars, and other businesses comply with COVID-related guidelines. **For more information or to report compliance issues contact these state agencies directly: OSHA: (800) 922-2689 or [OSHA website](#) or OLCC (503) 872-5000 or [OLCC website](#)**
