

Where can you obtain immunizations?

Contact your medical provider. This is a great opportunity to schedule a well child check if your child needs one.

If you are unable to schedule with your medical provider, immunizations are also available at:

Please call first to confirm scheduling and availability.

Pharmacies can immunize children 7 years and older without a prescription, or younger with a prescription. Parents should contact their neighborhood pharmacy for availability of vaccines and details.

Important: Please note that children on UHA/DCIPA or DMAP cannot be vaccinated at a pharmacy. They must get their immunizations at a clinic.

No one will be turned away for their inability to pay at **Aviva Health** or **Dunes Family Health Care**.
